# GRADUATES

*Kernan Collegiate has now reached a momentous landmark as an institute of knowledge. For among the graduates of 1963 are the students of the very first grade nine classes. Together we have observed with pride the augmentation of our scholastic attainments, our athletic achievements and our musical distinctions. We are sincerely confident that succeeding years for Kernan Collegiate will be as prosperous, and happy as those which we have experienced.*

## Focus...

on  
your Future

Before you decide on your vocation, it will pay you to read about what a career in banking has to offer you—its opportunities and benefits. Simply drop a line to the Staff Department, Bank of Montreal, P.O. Box 6002, Montreal, and ask for a copy of "Career Opportunities at Canada's First Bank". If you prefer, you can call in at your nearest branch for a copy. There is no obligation, except to yourself.

# EDUCATION

*preparation for the work of life*

Ford of Canada encourages young people in their search for education. Over the past 8 years, 51 university scholarships have been awarded to the sons and daughters of employees. The young men and women chosen may select any approved college or university in Canada. Ford of Canada also helps support a number of youth programs. Teaching aids and educational motion pictures are made available to Canadian schools. In addition, Ford of Canada Dealers in many communities participate in High School driver education projects. We are proud to be associated with many educational activities, because we believe that a sound education is the best preparation for the challenges and opportunities of the future.

## Any idea what this solution is used for?

Two "salts" and some sulphuric acid. This solution was used to help develop ways of making Chrysler-built automobiles stand up better to conditions found on streets and roads at different times of the year. (One of the worst enemies a car has is the salt put down to melt snow.)

After three years of driving cars right through this salt-and-acid solution (and also splashing them with

it), Chrysler of Canada found that its new system of protecting cars against corrosion provided more than three times longer structural life.

This was only one part of the program to make cars resist rust and corrosion better. If you go looking at new 1963 cars with your family, ask the dealer who sells a Chrysler of Canada car to point out all the improvements this program has made possible.
